MEMORANDUM FOR: Deputy Director for Administration

FROM: R. E. Hineman
Deputy Director for Science and Technology

SUBJECT: DS&T Space Issues

Bill -

1. I would like to bring to your attention space-related issues which are presently affecting Directorate of Science and Technology (DS&T) planning. The first two concern Headquarters space; the third concerns Reston.

Headquarters

2. When it became apparent some time ago that the new Headquarters Building would not accommodate all of the components originally designated to occupy that space, all but one of the DS&T offices were removed from the list and plans were developed to locate them elsewhere. Thus, the DS&T expected to be a relatively minor player in the space planning activities for the Headquarters compound. Parts of OSO (which have always been in the old building) and OTS (which is due to move into the new building) have, however, become involved in the overall effort to accommodate the Agency elements which are to remain or move here. Both offices are concerned about the decisions being made about their space.
